

General

We highly recommend reading through our artwork specifications. This will save you time and money! If you are unable to supply us to these specifications we can amend your artwork for a small fee.

when supplying files online -up to 25mb - email to design@brandright.com.au
-for those larger files - Send through via Google Drive or other similar software

PLEASE SUPPLY ALL LOGO'S IN .EPS, .AI or .PDF FORMAT (VECTOR BASED)

Adobe Illustrator

Adobe Photoshop

High Res PDFs

- Set up file in CMYK at 100%. Where 100% is not possible, use the largest scale possible and notify us in your file name.
- Please make sure ALL FONTS ARE OUTLINED. Where changes are required please include a copy of any true type fonts.
- Images should be a minimum of 150 dpi at output size.
- When using images in illustrator, Ensure the photographs are embedded into the file or are sent as a separate file.
- If you require PMS Colours to be matched please specify in your file. (CMYK breakdowns can not be matched).
- Include at least 10mm bleed around in all files (20mm total). Bleed must be included as part of the document size not as external document bleed eg. if the sign is 1000x2000mm the document size should be **1020x2020mm**.
- Please note crop marks and registration marks are not required.
- We accept eps, pdf, ai, psd, eps, tif, and jpg files
